

Photochemistry (Hardback)

By -

Royal Society Of Chemistry, United Kingdom, 2013. Hardback. Book Condition: New. 229 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.Reviewing photo-induced processes that have relevance to a wide-ranging number of academic and commercial disciplines and interests covering chemistry, physics, biology and technology, this series is essential reading for anyone wishing to keep abreast of the current literature. Now in its 41st volume, and with contributions from across the globe, this series continues to present an accessible digest of current opinion and research in all aspects of photochemistry. More than 100 years have passed since Ciamician first talked of solar energy conversion and photoresponsive materials and these topics are among those reviewed in this Specialist Periodical Report. Other chapters examine the potential for photo-click chemistry, the photophysics of transition-metal complexes and excited state dynamics in conjugated polymers. This specialist periodical report presents critical and comprehensive reviews of the last 12 months of the literature and is an essential resource for anyone working at the cutting edge of photochemistry.
