

Clinical Pharmacology and Therapeutics for the Veterinary Technician

By Robert L. Bill Dvm Phd

Mosby. Paperback. Book Condition: New. Paperback. 448 pages. Dimensions: 9.1in. x 7.5in. x 0.7in. In order to facilitate a better understanding of the hows and whys behind current drug therapies administered in the veterinary field, this text takes a comprehensive look at therapeutic agents in use today. Following a unique body systems organization method, this text clearly identifies and rationalizes the effects of veterinary medication treatments that will allow better anticipation of a patient's response to various remedies. A variety of review methods including self-tests, summary tables, and critical thinking questions aid the reader's understanding of material presented and allow for practical application in the veterinary world. Covers fundamental principles of pharmacology in a manner appropriate for both veterinary technicians and students. Provides strong introductory content on safety, terminology, pharmaceutical procedures, drug handling, dosage calculations, and pharmacokinetics. Systematically organized, using chapter outlines for ease of pinpointing desired material, key terms, and learning objectives to better focus reader's learning. Summarizes ideas presented using review questions to better facilitate comprehension, and integrated Pharm Facts boxes highlighting important points within the text. Contains the latest OSHA requirements of safe drug and chemical handling in professional environments. New and updated information is presented on all...

Reviews

This is the finest book i have got study right up until now. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
