Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Practical Work in Organic Chemistry The object of this little book is to meet a want which the author has experienced in teaching the rudiments of Practical Organic Chemistry to students who can devote but little time to the subject. The subject matter of the following Programmes of Work has been chosen partly on account of its technical utility, and partly as affording practice in the application of the more important reagents employed in the investigation of the compounds of carbon. The writer wishes it to be expressly understood that the book is only intended to be a laboratory guide, and its use should be supplemented by reference to standard works, or still better by personal instruction from the teacher. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
