Principles of Mathematics Book 2 (Teacher Guide) (Paperback)

By Katherine Loop

Master Books, United States, 2016. Paperback. Book Condition: New. Student, Workbook. 277 x 211 mm. Language: English . Brand New Book. Math is a real-life tool that points us to God and helps us explore His creation, yet it often comes across as dry facts and meaningless rules. Here at last is a curriculum that has a biblical worldview integrated throughout the text and problems, not just added as an afterthought. In this workbook, a student is provided the practice sheets needed to master the skills learned in the main text. What does this workbook include? [[Worksheets, Quizzes, and Tests: These perforated, three-hole punched pages help provide practice on the principles taught in the main student textbook. [[Answer Keys: The answers are included for the worksheets, quizzes, and tests found in this Student Workbook. [[Schedule: A suggested calendar schedule is provided for completing the material in one year, though this can be adapted to meet individual student needs. There is also an accelerated schedule for completing the material in one semester. Are there any prerequisites for this course? This curriculum is aimed at grades 6-8, fitting into most math approaches the year or two years prior to starting high school...
